Message to The White House attached ("At the time a Lebanese man ..." refers to ~1992-1995). DPD courier vans caught on camera taking part in French military (satellite-coordinated) extra-territorial operations in Europe (possible connection with assassination/ killing of Japanese female journalist in Syria; French "tourists" in Krakow on 10/13/2016 involved).

On 10/15/2016 uniformed Polish policemen continue participating in thefts of my property, satellite attacks on brain and internal organs, laser hits on body parts, tampering with my equipment and communications. Military "tourism" (Norway, France, Spain, etc., e.g.: suggesting the police have the right to get whatever they want gratuitously (<https://www.youtube.com/watch?v=ma5dv2woDHM> ??)), photos available. Again, car engine (remotely) electronically blocked by satellite-coordinated individuals (mostly Jewish) involved in US federal embezzlements.

These Krakow bandits are being coordinated from Tampa, Florida. Lookalikes of one american living on Rocinante Street in 1992 and named Tray have been seen in Tallinn (2013) and in L'vov (2014) (the former using nuclear satellites and posing as a lawyer). I have concrete information, but by email is not possible to convey it.

Above-mentioned Tray is indirectly invoved in the shooting of Congresswoman Cliffords (Space weapons - US Federal Budget - Arizona segregation - Leningrad / Saint Petersburg). One of his roommates was a student from Venezuela. Cuba has been historically targeted from Tampa for subversion and invasion preparations.

I contacted today Egypt Air for the same reasons.

Thank you for your understanding.

During the night from October 5th - 6th, Jewish vandals connected with a Krakow business front run by Italians (Neapolitans) that has been used by the French military (photos available), passing next to my car (while i tried sleeping), scanning the brain/ laser-hitting body parts (torture); one of them opened its back door (having remotely tampered with the central lock system?, around 4:30 a.m.). French / U.S. military subversion coordinated with involvement from Tampa, Florida (the mafia/ camorra call itself U.S. counterespionage, hinting at Sicily). South African activists (extreme-right CIA/ U.S. State Department customers) had walked by earlier, suggesting my meeting with a Colombian General at the embassy of Colombia in Moscow in October 2010, as i stood in the rain begging for money. Again uniformed Polish policemen took part.

Attached images: reference numbers of October 5th, 2016 denunciations through Russian Military Prosecutor's Office and Investigative Committee of the Russian Federation websites (international terrorism on Russian territory with numerous victims; see /latest.php pages).

The French Communist Party appears to be unreachable (emails blocked by the French military), for already several weeks. Attacks and sabotage in Krakow with the participation of French military personnel in plain clothes (and other "tourists") continue.

I am financially choked by the CIA Jew mafia. The day the black man was killed by the white police, an american white boy that claimed being the owner of a Krakow translating agency, "happened to walk by, offer me to a drink, i refused, he gave me

twenty Pln". In such conditions, i hope you understand, it is impossible to stay in this city any longer.

U.S. diplomatic personnel in several countries, including Swizerland and Poland, are actively and continuously supporting in every possible way such South African garbage.

Last two images (see time signature):

IMG_20160925_064933: Since early morning, the French military (Jewish gangsters connected with Chicago and targeting Cuba, see time signature; others have been also caught on camera using (possibly) French military satellites to steal) filming car /streets and scanning brain / laser-hitting body parts. Ukrainian citizens again participating (Right Sector?). Photographed man involved in below-mentioned recent killing of black by white US police officer (since 2012 done systematically and with military (South African) support). At nighttime, male / female activists standing next to my car, making noises / comments to wake me up. I recommended officer of the US embassy in Brussels **** policemen / military vandals such as these ones, during

phone subsequent conversation. Communications / equipment illegal tampering continues, even as i send this email; U.S. diplomatic personnel in Poland appear to be coordinating such thefts / subversion. In 2013, i photographed CIA agents at Warsaw's Chopin airport that were consciously taking part in these racist killings and segregation.

Thefts and attacks by Polish military, with participation of French servicemen in plain clothes, continue (photos available, police station on Rue de Vaugirard, Paris implicated). Attack on humanitarian convoy - U.S. air strike on Syrian troops.

Тема: Fwd: Manslaughter by US White Police, satellite-coordinated (again).

Кому:

Under police protection and with military participation (in plain clothes and through illegal equipment) White-Jew South African agents stealing, filming car/ streets/ public establishments and scanning brain - laser hitting body parts.

Attacks on head produce local bumps (danger of cancer?). For example, two police scumsters dashing walnut against the sidewalk of a banking institution corner (attached images) - yesterday's assassination by white police of yet another black in the U.S. (Ukraine's Right Sector implicated, more photos available; multiple proofs of complicity of the so-called criminal brigade of the police (low-level "businessmen")).

The US embassy in Warsaw and its consulate in Krakow received above information

today by email. French "tourists" satellite-coordinated from Paris in real-time regime continue taking part.
